Vision

To be a respected company in the global pharmaceutical industry known for its technical capabilities, cGMP commitments and deliveries.

MAKING OUR MARK

Incepted in the year 2000 by an enterprising technocrat (Doctorate in Chemistry) having more than three decades of industry experience with leading Indian Pharmaceutical MNCs, Shodhana Laboratories Limited, has steadily established itself as a fast-growing company with a wide range of APIs and intermediates.

Today, we are a partner of choice, and our customers include renowned pharmaceutical companies globally.

Evolving Through Research

Shodhana has a well-equipped R&D Centre with a dynamic team comprising of qualified and experienced scientists, who work relentlessly on process developments, new product development as well as Custom Chemical Synthesis.

Shodhana has also demonstrated its capabilities by

- Developing products for the global markets
- Scaling up from lab process (milligram) to pilot scale (several kilograms) and to commercial scales (tons, lots)
- Successfully optimising several processes in the lab, Shodhana also has a proven track record in developing novel/alternate processes

Expertise in chemistry

- Grignard reactions
- Resolutions & Racemizations
- Reductions
- Oxidations (KMnO₄, Oppenauer, Periodate)
- Alkylations
- Mannich Reaction
- Cyclisation
- Amidations
- Fischer indole synthesis
- Aromatization
- Hydrogenations
- Friedel-Crafts Alkylation
- Dieckmann Reaction
- Darzen's Glycidic Ester Synthesis and many more.

Built on trust

At Shodhana, our product portfolio in bulk APIs and intermediates continues to add critical mass to our growth. Our fully equipped manufacturing facilities conforming to cGMP norms, empower and enhance our capabilities in manufacturing quality products.

Robust infrastructure

We have invested in the best of infrastructure, for, we at Shodhana believe that the formulation's efficacy is only as good as the API it is made with.

As a vertically integrated company, we depend on our own subsidiary units for early stage intermediates. This way, we not only ensure strict adherence to global quality standards, but also have complete control over the deliveries.

Our proven strengths

- ⬢ Adept in cGMP, regulatory requirements, preparations of DMFs and filing, systems development and implementation, patent evaluation, its implications and patenting processes
- ⬢ ISO-9001-2008 and ISO 14001-2004 certified
- ⬢ USDMF Filed
- ⬢ 30+ DMFs filed for various products globally
- ⬢ CEPs/COS available
- ⬢ EU written confirmations
- ⬢ Shodhana has several patents to its credit

Our fully-owned subsidiary units are a part of DMFs for many big MNC's globally.

Resourceful,
in more ways
than one

With supplies to more than 50 countries, Shodhana continues to entrench its position with good scientific knowledge on process development, scale-up, commercialisation and adaptation of new processes and technologies.

At Shodhana, we go the extra mile in creating value for our customers; as we believe we are the sum total of our Research and manufacturing excellence, our regulatory and product capabilities and...customer satisfaction.

Approvals by stringent regulatory authorities
TGA Australia, COFEPRIS Mexico, KFDA Korea
